Soft Skills

Applying my creative/artistic side to find technical solutions

Organized and Punctual

Experience in meeting deadlines and working under pressure

Fast learner which helps me grasp new technologies rapidly

Work Experience

Graphic Designer

ASU Enterprise Marketing Hub

January 2020 - present

As a student designer, I help the creative team at ASU's Hub to create graphics for Athletics and Alumni Association. Having the reach of generations of ASU alumni, it is part of my duties to create graphics in a cohesive manner by working with the year-long campaign guidelines, and utilize a toolbox of content.

Web Developer (Core Team)

Developer Student Club (Google) @ ASU

November 2020 - present

Part of the core team and web developer at Arizona State University's Developer Student Clubs. I help create and maintain the website and resources that help students interested in Google developer technologies.

National Social Media Ambassador (Webmaster and Designer)

Future Business Leaders of America - Phi Beta Lambda

October 2018 - July 2019

Social Media Ambassadors' main goal is to bring awareness to the resources, programs, and opportunities that can be found through FBLA. In addition, help the National Officers promote FBLA initiatives and events and also help to engage members and chapters on an online platform.

Webmaster and Editor

Key Club International

August 2017 - May 2019

My duties as part of the board included serving on the Executive Board of Pinnacle High School's Key Club. Create Graphics, maintain the club website and provide technical expertise in general.

Awards and Recognition

Please visit my website for more details

Paoletti's Kitchen Website

- **1st Place** at the FBLA National Leadership Conference in **E-Business (website)** category, with an **award of \$100**.
- Also received **1st Place** at the State and Regional level competitions
- The success in FBLA competitions, especially at the national level, was brought to **Arizona Governors's** attention and his office honored the hard work put in by our team.

Path To FBLA App

- **3rd Place** at the FBLA National Leadership Conference in **Mobile App Development** category.
- Also received **1st place** at the State level competition.

Select Projects

Atmanirbhar Tarun Manch - Self Reliance

- The start of Covid-19 saw a rise in unemployment in my hometown of Indore, India. Having no luck finding new jobs, many decided to open their own small businesses. The emerging businesses had trouble gaining traction due to financial limitations. Upon hearing about this through my relatives, I decided to collaborate with a local non-profit organization, "Tarun Manch" (Youth Platform), to create a platform for these businesses in the form of an app and booklet. This is highly beneficial for those who want to obtain and provide household services and buy goods. The app launched on New Year 2021 with 200+ daily users.

ASU Cloud Storage Service Migration Automation

- I helped ASU's Enterprise Marketing Hub migrate their entire university-wide ASU brand assets library from cloud service Photoshelter. The automation process involved using the Photoshelter developer API's to archive and download the entire catalog of assets while maintaining the catalog structure and preserving the metadata of the assets. The downloaded assets were concurrently uploaded to Dropbox as backup
